“AI will replace 300M jobs by 2025.”

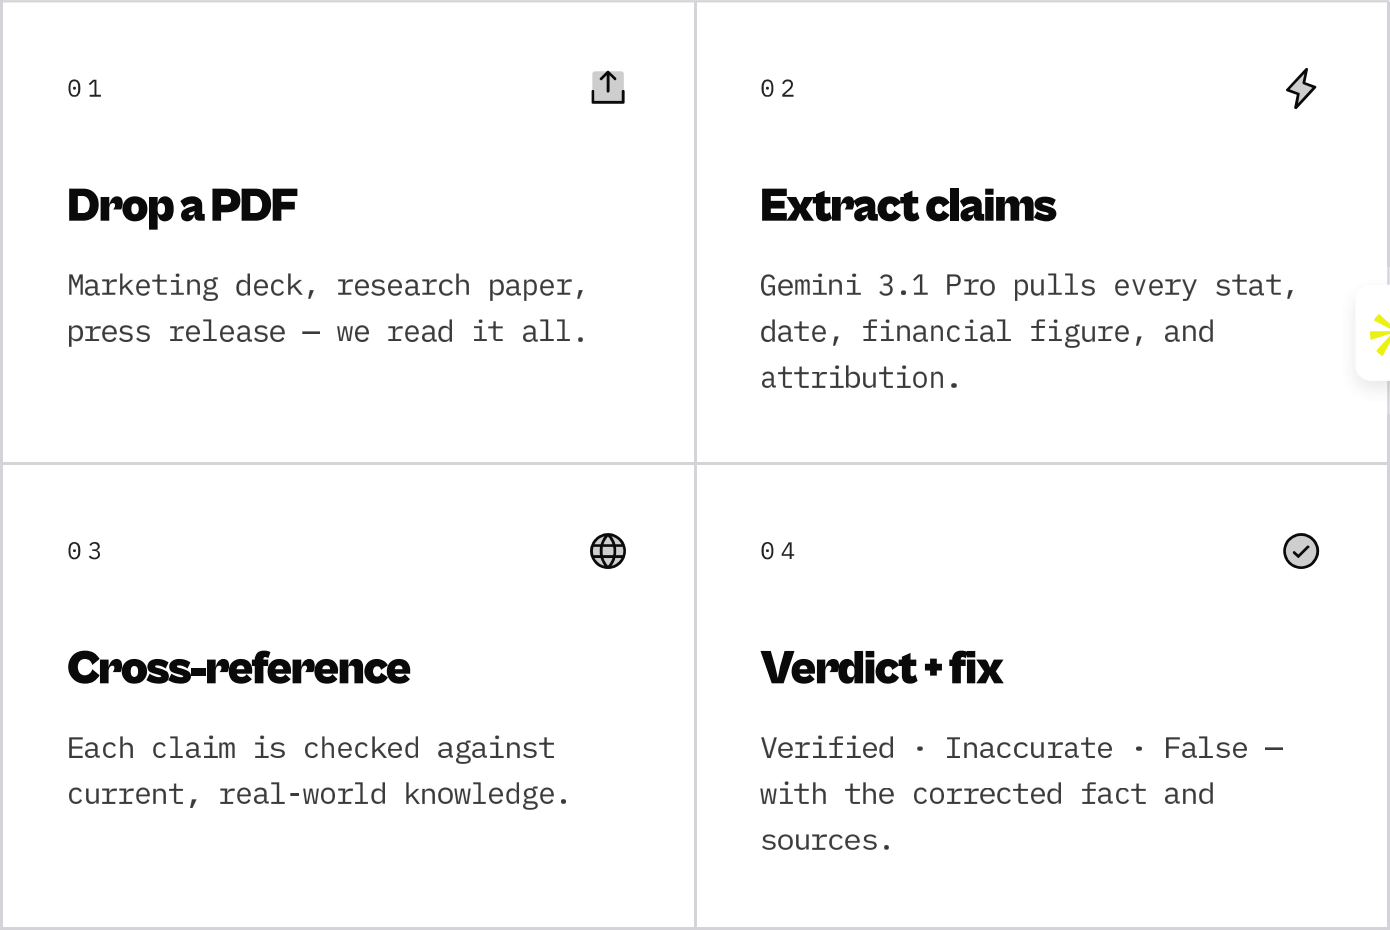

F A L S E

Correction: Goldman Sachs (2023) estimated ~300M jobs *could be exposed to automation* globally over the next decade – not eliminated, and not by 2025.

§ ABOUT

Why a Truth Layer?

Marketing decks, press releases, and even research papers are riddled with outdated statistics and confidently-stated nonsense. Generative AI made it worse: hallucinated numbers now travel faster than the corrections.

VERITAS/01 sits between you and the document – extracting every factual claim, checking it against current real-world knowledge, and handing back a verdict with the corrected fact. Think of it as a co-editor that cannot be charmed by a confident tone.
